

# Proceedings of the Institution of Civil Engineers UK, volume 164, 2011

## 1 Management, Procurement and Law

### Briefings

#### **Risk management critical to Crossrail's success**

T. Morgan

#### **A strategy for clients for procurement of good health and safety**

J. Anderson

### Papers

#### **Improving decision – making for major urban rail projects**

R. J. Allport

#### **Engaging the workforce to establish a safety-conscious culture**

J. Corcoran

#### **Multi-criteria contractor selection – a practical application of analytic hierarchy process**

A. A. Oladapo

#### **Educating engineers in the workplace**

B. G. Clarke

Volume-164 • Issue MP2 May 2011

## 2 Ground Improvement

### Papers

#### **Direct shear tests on sand treated with xanthan gum**

A. F. Cabalar and H. Canakci

#### **Compressibility behaviour of preloaded highly plastic clays**

J. Bindu and P. Vinod

#### **Deep soft soil improvement by alkaline activation**

N. Cristelo, S. Glendinning and A. Teixeira Pinto

#### **Bearing resistance reinforced soil – aggregate systems**

A. M. Nair and G. Madhavi Latha

#### **Performance of stone columns with circumferential nails**

S. Nayak, R. Shivashankar and M. R. Dheerendra Babu

Volume-164 • Issue GI2 May 2011

## 3 Water Management

### Papers

#### **Lessons for a viable water recycling industry**

A. P. Chanan, S. Vigneswaran, J. Kandasamy and B. Simmons

#### **Well rehabilitation in Rasht: a system dynamics approach**

M. Vaez Tehrani, L. Alikhani, M. S. Ameriun and H. R. Tashayoi

#### **Hydraulic performance of labyrinth side weirs using vanes or piles**

A. Kabiri-Samani, S. M. Borghei and H. Esmaili

#### **A new formula to calculate residence times of tidal waterbodies**

M. Hartnett, T. Dabrowski and A. I. Olbert

#### **Direct integration of Manning-based gradually varied flow equation**

R. Vatankhah and S. M. Easa

Volume-164 • Issue WM5 May 2011

4 **Energy**

**Briefings**

**Good news, bad news: the UK public spending review**

M. Bedford

**Concentrating solar power compared with flat-plate collectors, south-east Asia**

P. Napier-Moore

**Papers**

**Lessons learnt from recent nuclear build projects**

R. Garnsey, M. J. Joyce and I. Nickson

**Providing community energy for the London 2012 Olympic Park**

R. Maybank, M. Carr, I. Guest and B. Laidlaw

**Biohydrogen from sugar industry waste and sewage**

R. Balin and S. Raman

Volume-164 • Issue EN2 May 2011

5 **Construction Materials**

**Papers**

**Aggregate selection for durability of concrete structures**

A. Shayan

**Effects of incorporating steel fibre on the properties of high-strength flowing concrete**

M. Ramli and E. T. Dawood

**Production of HSC using pumicite and water-reducing admixture**

E. T. Dawood, M. Ramli and N. S. Ismaeel

**Flexural capacity of one-way GFRP concrete slabs**

E. M. Lotfy, S. M. Elzeiny and A. M. Rashad

**Correlating washout to strength loss of underwater concrete**

J. J. Assaad, Y. Daou and H. Salman

Volume-164 • IssueCM3 June 2011

6 **Urban Design and Planning: Urban Development and Sustainability**

**Briefings**

**Cities beautiful**

A. J. Simpson

**Papers**

**Tailored sustainability assessment for urban masterplanning**

J. Mulligan, G. R. Tuzzolo, B. J. Stigge and P. M. Guthrie

**Assessment of climate change mitigation and adaptation in cities**

C. L. Walsh, R. J. Dawson, J. W. Hall, S. L. Barr, M. Batty,  
A. L. Bristow, S. Carney, A. S. Dagoumas, A. C. Ford, C. Harpham,  
M.R. Tight, H. Watters and A. M. Zanni

**Using contracts to promote sustainable complex urban projects**

M. Van der Veen and W. K. Korthals Altes

**Rethinking social inclusivity: design strategies for cities**

Y. Afacan, S. O. Afacan

**Planning for sustainable urban areas or everyday life and inclusion**

C. Greed

**Designing a carbon capture function into urban soils**

P. Renforth, J. Edmondson, J. R. Leake, K. J. Gaston and

D. A. C. Manning

**Alternative approaches to slum upgrading in Kibera, Nairobi**

V. Cronin and P. Guthrie

Volume-164 • IssueDP2 June 2011

**7 Engineering and Computational Mechanics**

**Papers**

**FE homogenised limit analysis model for masonry structures**

G. Milani and P. B. Lourenco

**Numerical prediction of dynamic response of RC beams**

J. H. Haido, B.H. Abu-Bakar, A. A. Abdul-Razzak and J. Jayaprakash

**Analytical model for streamwise velocity in vegetated channels**

X. Tang, D.W. Knight and M. Sterling

**The mechanics of inelastic buckling using a Shanley-like model**

S. S. Huang, I. Burgess, Z. Huang and R. Plank

Volume-164 • IssueEM2 June 2011

**8 Geotechnical Engineering: Compacted fills–part 2**

**Papers**

**Geotechnical design for the Port Botany expansion project, Sydney**

P. R. E. Davies and J. D. McIlquham

**The adaptation and use of French and UK earthworks methods**

R. Puttock, R. Foster and S. Walkley

**Compaction of fills in land reclamation by rapid impact**

K. S. Watts and A. Cooper

**Behaviour of compacted silt used to construct flood embankment**

G. El Mountassir, M. Sánchez, E. Romero, R. A. A. Soemiro

**Field permeability at shallow depth in a compacted fill**

L. J. H. Li, L. Zhang, B. C. P. Kwong

**Use of red gypsum in soil mixing engineering applications**

P. N. Hughes, S. Glendinning, D. A. C. Manning, M. L. White

**Reclamation of former ironstone workings, Priors Hall, Corby, UK**

J. S. Palmer, A. Campbell and R. Wilson

Volume-164 • IssueGE3 June 2011

**9 Maritime Engineering**

**Papers**

**Port of Ferrol enlargement works, Spain**

I. de la Peña Zarzuelo

**Estimating propeller scour at quays alongside a berthing ship**

D. Ryan, G. A. Hamill

**Determining coastal zone boundaries and related issues in Turkey**

M. Çete. O. Demir and B. Uzun

**Rising sea levels in the English Channel 1900 to 2100**

I. Haigh, R. Nicholls and N. Wells

Volume-164 • IssueMA2 June 2011

## 10 Structures and Building

### Papers

#### **Timber-reinforced structures in Greece: 2500 BC-1900 AD**

E. Vintzileou

#### **Form-finding of cable domes by simplified force density method**

Y. Xi, Z. Xi and W. H. Qin

#### **Performance of joints in reinforced concrete slabs for two-way spanning action**

J. Stehle, A. Kanellopoulos and B. L. Karihaloo

#### **Cyclic stress development in substandard beam-column joint**

P. Joyklad and A. Pimanmas

Volume-164 • IssueSB3 June 2011

## 11 Water Management

### Papers

#### **Modelling flash flood risk in urban areas**

J. Xia, R. A. Falconer, B. Lin and G. Tan

#### **Bridge afflux estimation using artificial intelligence systems**

G. Seckin, M. Cobaner, H. Ozmen-Cagatay, S. Atabay and

K. S.Erduran

#### **No-choke flow in USBR standard horseshoe channel cross-section**

M. Bijankhan and E. Darvishi

#### **Block ramp failure mechanisms: critical discharge estimation**

S. Pagliara and M. Palermo

#### **Transient generation in pipe networks for leak detection**

A. Haghighi and H. Shamloo

Volume-164 • IssueWM6 June 2011

## 12 Water Management

### Papers

#### **Site selection of raingauges using entropy methodologies**

A. Karimi-Hosseini, O. Bozorg Haddad and M. A. Marino

#### **Optimal design of water networks using fuzzy genetic algorithm**

M. Amirabdollahian, M.R. Chamani and K. Asghari

#### **Study of flow structure and sediment entry to a lateral intake**

M. Esmaeili Varaki, J. Farhoudi and D. Walker

#### **Water quality with storage in permeable pavement basecourse**

B. Myers, S. Beecham and J. A. van Leeuwen

Volume-164 • IssueWM7 July 2011

## 13 Management, Procurement and Law

### Briefings

#### **Globalization, innovation and collaboration**

D. Dryden

#### **Specifics of construction procurement strategies in CIS**

S. Gan

## Papers

### **Managing UK Highways Act section 278 project - a collaborative approach**

I. Yates and J. Povall

### **Safety and Health education for demolition and reconstruction**

M. Shaurette

### **Front-end specifications and construction claims**

S. J. Hymes

### **Evaluation of workplace drug testing in UK civil engineering construction**

S. Wamuziri

Volume-164 • IssueMP3 August 2011

## 14 **Geotechnical Engineering**

### Papers

#### **Piles for offshore wind turbines: a state-of-the-art review**

K. Gavin, D. Igoe and P. Doherty

#### **Unsaturated loessial soils: a sustainable solution for earthworks**

C. Roohnavaz, E.J.F. Russell and H. F. Taylor

#### **Engineering properties of sand stabilised with borogypsum**

A. S. Zaimoglu

#### **Subgrade reaction modulus of Tehran alluvium**

R. Z. Moayed and M. Janbaz

Volume-164 • IssueGE4 August 2011

## 15 **Ground Improvement: Deep mixing**

### Papers

#### **Assessment of stabilized soil strength with geophysical methods**

H. Åhnberg and M. Holmén

#### **Stability analysis for levees on deep-mixed shear walls**

G. M. Filz, A. E. Templeton and T. E. Adams

#### **Soil mix technology for land remediation: recent innovations**

A. Al-Tabbaa, P. Barker and C. W. Evans

#### **Stabilisation of tributyltin-sediment in harbour in Helsinki**

J. Havukainen, A. Piispanen and M. Leppänen

#### **Seismic-resistant effect of cement-treated soil for quay wall**

H. Takahashi, M. Kitazume, T. Noguchi and N. Suzuki

#### **QA/QC for deep-mixed ground: current practice and future research needs**

M. Terashi and M. Kitazume

#### **Non-destructive technique for assessing cement-treated ground**

Y. Asaka and T. Abe

#### **Ten year follow-up study of airfoam-treated lightweight soil**

Y. Watabe, H. Saegusa, H. Shinsha and T. Tsuchida

Volume-164 • Issue GI3 August 2011

## 16 **Construction Materials**

### Papers

#### **Application of non-conventional materials in construction**

C. Zhang and L. Canning

#### **Mechanical properties of EPS lightweight concrete**

B. Chen and C. Fang

**Thermal insulation performance of aerated lightweight concrete**

S. C. Ng, K. S. Low and S. K. Lim

**Corrosion in RC construction under chloride and hot weather**

R. R. Hussain, T. Ishida and M. Wasim

**Activation of bagasse ash in cement using different techniques**

N. Amin and S. Alam

**Shrinkage stresses in concrete using a new material parameter**

M. H. Baluch, M. K. Rahman, M. A. Shazali and W. A. Al-Kutti

Volume-164 • Issue CM4 August 2011

17 **Transport**

**Transport in a low-carbon managed future**

**Papers**

**Synergies between low-carbon and healthy transport policies**

J. S. Mindell, J. M. Cohen, S. Watkins and N. Tyler

**Modeling a low-carbon city**

D. Menichetti and T. van Vuren

**Materials and energy assessment in Ceequal transport projects**

S. Ghumra, J. Glass, M. W. Frost, M. Watkins and J. Mundy

**A practical tool for low-carbon road design and construction**

J. Fox, D. Bell, G. Edmond, P. Cummings and J. Langstraat

**What we can learn from car sharing experiences in the UK?**

J. Parker, C. Walker and R. Johnson

**Practices and motivations of travellers making rail-cycle trips**

H. Sherwin, G. Parkhurst, D. Robbins and I. Walker

**Local and regional climate change research**

F. Wilford and S. Fraser

Volume-164 • Issue TR3 August 2011
